[More reading re geoducks.](#)

I heard that Ecology decided at SMT to postpone the guidance until after the AGO comes out. If that's right, I'll pass it on to Plauche.

Hi Tom -- In case you finish my letter before you finish your sandwich, I thought I'd forward you one more item to read. I am attaching to this e-mail a letter that Jim Gibbons, one of the PCSGA members, sent to Kathy Fletcher at People for Puget Sound discussing various geoduck culture issues. Jim's letter doesn't really go into the legal issues addressed in my letter, but I thought it might be helpful for you to get a sense of the significance of the geoduck issues from the growers' perspectives. Jim's letter also contains some insights about the environmental issues and the status of scientific studies (again, from the growers' perspective).

Thanks. Billy
